| POLICIES | |
| Attendance policy | <p>The student must attend 100% of practical classes. In case of skipping classes, the student must work off the missed class in accordance with the schedule of work, approved by the department in the presence of the relevant order of the dean's office.</p> |

| | |
|---|---|
| Assessment policy | <p>During the assessment of mastering each topic for the current educational activity of the student grades are given on a 4-point ("2", "3", "4", "5"), taking into account the approved assessment criteria in the discipline. Forms of assessment of current educational activities involve the control of theoretical and practical training. The final score for the current activity is determined by deducting the average grades at the end of the semester - separately for the oral examination and test control, which are translated into scores. At the last lesson at the end of the semester, the student must pass a differentiated test. Differentiated credit: Differentiated credit is carried out upon completion of the study of all topics of the discipline in the last lesson. Students who have completed all types of work provided for in the curriculum and scored at least the minimum number of points (72 points) are admitted to the differentiated test. The student must complete all missed classes (oral answer to a question on the topic of the lesson with a positive assessment of this answer). The form of differentiated credit includes control of theoretical and practical training. The maximum number of points a student can get is 80. Differentiated credit is considered credited if the student scored at least 48 points. The grade from the discipline is set as the average of the grades for practical classes + points for differentiated credit. Differentiated offset Stage I - Computer testing for the current semester (CT) 20 questions - 20 b. (each correct answer to the question is equal to 1 point) Stage II - Oral answer "5" - 60 p. "4" - 48 p. "3" - 36 p. Summary (CT + Oral answer) "5" - 70-80 p. "4" - 59-69 p. "3" - 48-58 p. Total for the discipline (CT + Oral answer + points for the current educational activity) "5" - 170-200 p. "4" - 140-169 p. "3" - 120-139 p.</p> |
| Deadlines and course retake policy | <p>In case of unsatisfactory result, the student has the right to reassign the differentiated test twice - the first time to the examiner appointed by the head of the department, the second - to the commission created by the dean's office. Reassignment of differentiated credit is carried out according to a separate schedule, which is approved by the dean's office. Students who do not appear for the differentiated test without a good reason are considered to have received an unsatisfactory grade. The student's refusal to answer the questions is certified as an unsatisfactory answer. The student has the right to receive an explanation of the grade obtained.</p> |
| Assessment appeals policy | <p>The results of the module and semester assessment are subject to appeal. A student must lodge an appeal to the director/dean on the day of certification or after announcing the results, but no later than the next working day. The appeal commission is established by the director/dean's order. The appeal commission's decision may change the grade in case of violations revealed during the attestation.</p> |

|---|--|
| <p>Academic integrity policy</p> | <p>Participants must complete all tasks according to the course requirements independently. Participants are not allowed to cheat during the written module or summative test. The assignments should not contain plagiarism, facts of fabrication, falsification, cheating. Manifestations of other types of academic dishonesty determined by the Academic Integrity policy are also unacceptable. If a teacher reveals violations of academic integrity by students during the course, the former have the right to take one of the following actions: - to reduce points by up to 40% for practical assignments; - to give recommendations for improving and resubmitting mandatory homework assignments with the reduction of points by up to 25%; - to not accept mandatory homework assignments without the right to resubmit; - set a date for retaking the written module or the summative test with a reduction of points by up to 15%; - to not allow to retake the written module or the summative test.</p> |
